

## Site Evacuation Schedule 2018

The following anticipated schedule is indicative only and has been designed to:

1. Help parents deliberately plan to stagger their arrival, and therefore have as speedy and smooth a pickup as possible, at Wyatt Reserve Oval
2. Accommodate space logistics in Echunga Road by sequencing the departure of available buses – this will automatically lead to staggered arrival at Wyatt Avenue and maximise safety as buses pull in and out in the designated 'drop off' space.

The speed of evacuation will depend on NBCS buses being onsite and how many Forest Line Buses are immediately available. Please anticipate the relevant buses may not arrive before the following timeframes after supervised evacuation actually commences:
